### HOOVER STARTS ON FIRST STUMP TOUR OF NATION

By PAUL R. MALLON  
United Press Staff Correspondent  
PALO ALTO, Calif., Aug. 16.—(U.P.)—Herbert Hoover sets out tonight on the first political stump tour of his career—just as confident that he will win in November as he is that his special train will arrive in Washington a week from tomorrow, but also a little disturbed that he must abandon his shy reserved manner and become a political candidate.

The republican candidate for the presidency obtained the nomination without a stump speech. He came across the country six weeks ago protected from the populace by the fact that he had not yet made his acceptance speech. Since he has been here he has been virtually in retirement.

Now he goes forth to battle from the rear platform of his special train with two big speeches to be made; seven of five minutes (Continued on Page Eight)

### Local Musicians On Long Cruise

Charles Cecil of Richmond will head an orchestra on a round-the-world trip of the Dollar liner President Hayes which sails from San Francisco on September 7. Tryouts among various orchestras were held Wednesday and Cecil's orchestra won the honors. The cruise will take one year.

Cecil, who plays saxophone, violin and drums, will have with him Lewis B. Thompson of Richmond, banjoist and violinist; Stanford Barnt of Oakland, who plays the clarinet and saxophone and a pianist to be selected.

## Hot off the Griddle

"ELMER GENTRY," A NOVEL by Sinclair Lewis, which has been put into play form by at least three playwrights, is the subject of a heated battle between two experts who are working out the third act. If "Elmer Gentry" was produced on the stage as it was written, all those taking part in it would land in jail. The idea seems to be to write a third act which will skate over the thin ice of the law. Believers in the various religious denominations have not yet reached the point where they can go to a theatre and see themselves joked about, particularly when the play is based on a book written by a man who believes in nothing. Believe in something sincerely, whatever it is. Then there is some hope for you.

THE ASSISTANT TREASURER of Bancitaly Corporation, who skipped to Montreal, is arrested on a charge of embezzling half a million dollars. He says he will come back willingly and face trial. He juggled the books and played the stock market, hoping for a quick turnover. It didn't materialize, any more than it did for the thousands of investors who bought Bancitaly at less than 100 and saw it go up to 223 and who were all rich men on paper before it went down again. They got the thrill out of the stock market, but thrills cannot be deposited in the bank. If you have money, put it into a good, sound

### Sharkey's Record One Of Betrayal

"When the wise employer with an important business has working for him a man who is capable and a hard worker; who has learned the business from the ground up and WHO DELIVERS THE GOODS, he keeps that man"—Richmond Independent, August 16, 1928.

Very true, but when the employer discovers that this employee has made every effort to DELIVER THE GOODS TO SOMEONE ELSE, he immediately makes a change.

#### CHANGE IS NECESSARY

That is the situation Senator Sharkey finds himself in, with his employer—the voters of Contra Costa and Marin. They have determined for the good of all a change is necessary.

#### BLACK AS SHEOL

The attempt of Sharkey's chief supporter—the Richmond Independent, to paint Sharkey as white as a lily is pure buncombe, especially when the editor of that paper knows that his record is BLACK AS SHEOL.

#### MUTE ON BETRAYALS

The times that Sharkey has betrayed the interests of his constituents are many. The RECORD-HERALD has pointed out a number of them, and repeatedly asked Sharkey why he took such action.

Not only is Sharkey dumb as a mute but his chief supporter adopts the same attitude, and attempts to throw up a barrage, and divert the attention of the people from the main issue.

#### SO RANK IT STINKS

The RECORD-HERALD charges that the introduction of the EXTENSION-FRANCHISE-BRIDGE-BILL, Sharkey's pet measure, which would have taken nearly \$50,000,000 out of the pockets of the taxpayers of the county, is one of the grossest betrayals of public trust, that has happened in the legislative halls for years.

#### NO WONDER AT ALL

IS IT ANY WONDER THAT SHARKEY IS MUTE? IS THERE ANYONE WHO COULD MAKE A LEGITIMATE DEFENSE TO SUCH AN INIQUITOUS MEASURE?

#### YOUNG PROTECTS COUNTIES

Thanks to Governor Young, the infamous bill was throttled with his veto. At the end of the 25-year franchise period the Carquinez bridge will become the absolute property of the counties of Contra Costa and Solano, and the revenues from the bridge will go into the county treasuries.

#### TRIES TO DIVERT MILLIONS

Why did Sharkey make every effort, and use every artifice to divert these millions from the county treasuries to the pockets of a private concern?

#### WHERE WAS HE 631 TIMES?

The records of the Assembly and of the Senate show that Senator Sharkey missed 3109 roll calls during his career at Sacramento. In 1927, his truancy reached its peak when he was absent from roll call 631 times.

The women of this county want to know where he was and what he was doing during these 631 absences.

#### WHAT "WISE EMPLOYER" WOULD DO

The "wise employer," as for instance the great Standard Oil company, would not keep on its payroll a man who left his post of duty. A man charged with the custody of

### CAVALRY IS DISPATCHED FOR ACTION

LONDON, Aug. 16.—(U.P.)—Dispatches from the Morning Post correspondent at Harbin, Manchuria, tonight reported that Soviet Mongolians had declared war against the state of Barga.

A strong detachment of Russian trained Mongol cavalry was said to have crossed the border into Barga and Chinese troops were dispatched toward vital points.

The sudden military movements were the result of a Mongolian ultimatum demanding reunion of the two states. The ultimatum was rejected by Barga authorities, according to dispatches.

Meanwhile the trans-Siberian express trains were detained at Harbin which is a terminal of the railroad.

### Berkeley Man Tells Details Of Car Mishap

A large sedan which overturned and burned at the foot of tank farm hill, near San Pablo, Wednesday night, yesterday was identified as belonging to Lewis Mehan, College avenue, Berkeley, salesman for the H. O. Harrison company of Oakland.

Mehan claims he lost control of the car at the bottom of the grade, following which it upset in the center of the highway and became ignited. According to Mehan, who said he was alone at the time, he notified the Oakland office of the California Automobile association and men were taken home by a passing motorist.

Mehan was unhurt, and reported to work yesterday morning. The car is at Moitoza's garage in San Pablo, where it was taken under the direction of Constable Moitoza.

#### EXPERT SWIMMER AT 86

NEW ORLEANS, La., Aug. 16.—(U.P.)—Mrs. E. G. Guggenheim will be 86 years old in November, but she still can show younger people a few tricks about swimming. But she proved her ability by diving off a spring board and swimming rapidly across the pool.

ST. LOUIS, Aug. 16.—Contending that her report as an expert accountant on the results of her audit of the books of W. A. Moses today answered the \$25,000 suit of Hinds in which Phil A. Lee, El Cerrito's new mayor and an Oakland newspaper are named co-defendants.

## BUY HOME-MADE GOODS

Europe always can do a fair business with the United States for this country is a large buyer of foreign goods at all times. Even in the products that are made in this country, there is a field for creation of business by foreign producers. The commerce of the United States shows interesting cross-currents of trade with the same products coming into the country that are going out of it. This is a logical outcome of the human desire for particular styles, designs or construction, or perchance for something exotic. But, on the whole, a home industry logically should have the equivalent of all the home market that it can supply.

This country has a manufacturing capacity which allows it to make exports on a vast scale. This does not mean that it must seek markets held by others and take the mainway. As is explained by Dr. Julius Klein, director of the Bureau of Foreign and Domestic Commerce, an important part of our foreign trade is due rather to marked expansion of sales in commodities not previously supplied by any country than to usurpation of markets hitherto held by other nations. He finds that two vital elements govern our foreign business rather than what our rivals are doing: first the market prospects in any given area; second, our capacity to produce and export the desired commodities.

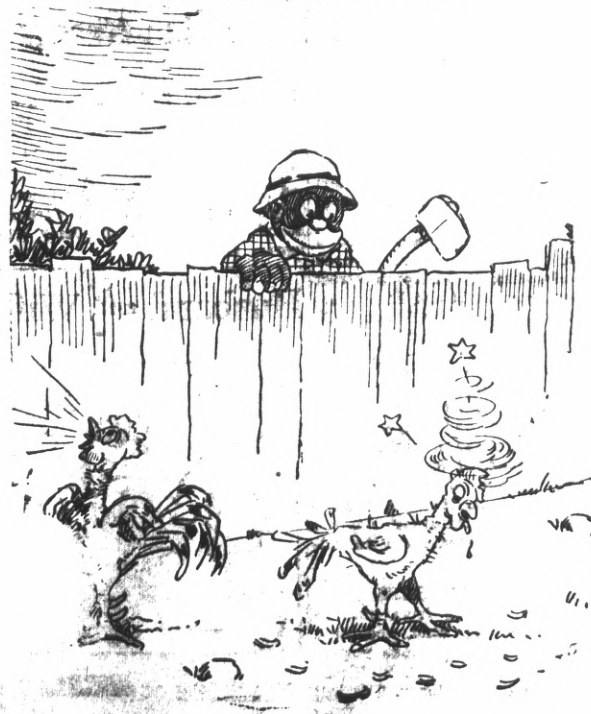

If other countries entered the American markets on this basis of supplying something that is lacking here, no complaint could be uttered. In fact, such business is welcomed. The so-called invasion of domestic markets by competing goods, however, is an object for challenge, and a thing to be deprecated. Always allowing for special circumstances, such as superiority of goods, in construction, design, style and price—under fair competitive conditions—the American consumer should be advised that in general his self-interest lies in patronizing the goods made in the U. S.

Workmen in Boston, cutting a solid block of wood, brought to light a live turtle which is said to have been in the block for 70 years. That's all right, of course, but how did it get in there?

A census statistician says that young people are relatively fewer, considering the total population, than they were a few years ago. This may be true, but at any rate they are showing more of themselves.

## BEAUTY

By LAURA LANE

Not only babies suffer from prickly heat when the summer months come. Many adults suffer needless torture from this cause on very hot days. Needless, because with proper care and attention, this annoyance can be more or less completely eliminated.

Prickly heat, which resembles a rash of fine, red pimples, is usually caused by excessive perspiration. With babies, woolen clothing is often the irritant. In such cases, lighter clothing should be substituted with soft muslin or linen next to the skin.

Frequent bathing is necessary in either case and, if perspiration is the cause, the use of a deodorant will minimize the possibility of getting prickly heat. It is not advisable, however, to use a deodorant when the rash has already appeared. The chemicals contained in such preparations may further irritate the affected portions of the body and cause serious harm.

To treat prickly heat, sponge the body frequently with equal parts of a sugar and water solution, which will do much to relieve the condition. It is made of two parts of sugar to one part of boracic acid powder.

Dear Miss Lane:—  
Would you please tell me some exercises for strengthening the abdominal muscles?—ELLA

Living flat on your back with your legs together, raises your feet slowly and without bending the knees as far as you can. Lower them just as slowly. Another simple exercise is to "ride a wheel" while lying in the same position. Bending from the waist and touching the floor with your fingertips is also beneficial.

# CLARA BOW IS STARRED HERE IN CROOK FILM

A great many dramas of the underworld have been flashed upon the screen but it has taken Clara Bow, queen of the flappers, to give the motion picture public the most stirring of all.

The Paramount star accomplishes this in "Ladies of the Mob," a thrilling story of gangsters and their loves, something which is rarely taken into consideration when the police reports are read.

It is an entirely different Clara Bow, who throws off the wiles of the flapper and plunges herself into a powerful portrayal of a gangster's girl of a gang.

The story, which was written by Ernest Booth, is a tale of a young couple of the underworld, the husband a crook and the wife attempting at all times to keep him straight. The climax produces a thrill when, caught and surrounded by the police, Miss Bow takes the most drastic method imagined to keep her man on the straight and narrow path.

Another interesting thing in the production is the use of a photograph of a crook, who made such a tremendous success with "Wings" and "The Sign of the Cross."

When the picture is shown at the Richmond Theatre, it will be a real treat to the audience. The picture is a real treat to the audience. The picture is a real treat to the audience.

# DIVER SUNK DURING WAR IS RAISED

By EUGENE LYONS

United Press Staff Correspondent MOSCOW, Aug. 16.—(U.P.)—The sequel to an unwritten chapter of the aftermath of the World War was revealed today when the Soviet raised the British submarine L-55 with its cargo of human skeletons.

Acting on official information from the fort at Kronstadt that a fleet of four British mine-sweepers and a submarine were lying in Kporsky Bay, the Russian destroyers Agard and Gavril on June 4, 1919, steamed into the bay to give battle. The mine-sweepers fled, but the submarine was submerged—only her periscope showing—when the destroyers opened fire.

The submarine sank rapidly carrying with her the entire crew of 41 men.

The incident was one of the many which occurred in the Baltic after the World War following the Allied hit-and-miss campaign against the famous German Iron Division, commanded by Von Der Goltz which had been operating in the Baltic states. Coming as it did in the mass of jumbled campaigns and counter-campaigns given the event, although the British themselves admitted that none survived the disaster. The submarine was comparatively new and had not joined the British Grand Fleet until the late summer of 1918.

After lying for ten years in the rusty iron hulk of the ship, it was of course, impossible to identify any of the skeletons. The Soviet's purpose in raising the ship was to determine the actual conditions under which it was sunk.

# SCREEN STAR'S ATTIRE SELDOM MODERN MODE

Joan Crawford, featured player of "Rose Marie," a Metro-Goldwyn Mayer production, which comes to the Richmond Theatre tonight is one of the most smartly gowned of the younger film set in Hollywood, yet she seldom has a chance to wear beautiful clothes on the screen.

In "Rose Marie," the screen version of the famous musical play presented two seasons ago by Arthur Hammerstein, and which has just been produced on the screen by Lucien Hubbard, Miss Crawford wears rough, brown khaki shorts, heavy dark blue gloves and Indian moccasins throughout almost the entire length of the picture.

Although she played the society girl in John Gilbert's "Twelve Miles Out," she wore out one dress throughout the entire picture.

In "Paris" she was an Apache girl and wore pan costumes, while in "The Understanding Heart" she dressed as a forest look-out in the timber country.

"Spring Fever" and "West Point" are about the only two pictures in which Miss Crawford has had a chance to show how well she can wear smart clothes.

Her personal wardrobe is large and her frocks are of the smartest. She favors the very tailored styles for sports and street wear, and the very feminine, bouffant types for evening.

House Peters and James Murray are also featured in "Rose Marie," which is said to be a mighty spectacle of the untamed Canadian.

## Attack On Consul Brings Action Of Italy Directorate

ROME, Aug. 16.—(U.P.)—Italy directed the Italian minister at Belgrade today to protest to Yugoslavia against the anti-Italian riots at Sarajevo Wednesday in which the Italian consul was injured. Reparations for the injuries will be demanded.

According to an official report of the incident, a large group of students gathered outside a coffee house while the Italian consul and the vice-consul were eating. An altercation followed in which the consul was injured by a blow from a chair thrown by one of the students.

Only timely police intervention saved the consul from the mob. Cordons were immediately thrown around all Italian homes and property to prevent further attacks from the rioters.

# When Safe Deposit Boxes Were Luxuries

SEVENTY-THREE years ago a San Francisco newspaper published an advertisement for a firm that had devised a sort of a safe deposit service. The vault was described as "thorough in every respect, having double iron doors, secured by Hobbs patent locks." Cash boxes were rented for two dollars a month, and valuable papers were cared for at a cost of one dollar a month. Today a good-sized box in the vault of a convenient office of the American Trust Company may be rented for a little more than one cent a day. There is nothing so safe as the modern safe deposit vaults.

## WILD BULL OF PAMPAS WILL TRY COMEBACK

By HARRY FERGUSON  
From the region on the other side of the tropics comes a mighty rumble and roar. A hairy-chested, swarthy giant with angry black eyes goes puffing along the highways of the Argentine, watching the excess flesh melt slowly off his ponderous frame. The "Wild Bull" of the Pampas is on the war path.

Louis Angel Firpo, who was knocked into obscurity five years ago by the good left fist of Jack Dempsey, is planning a comeback.

Much has happened in the realm of pugilism since that night in 1923 when Firpo crashed a blow into Dempsey that sent the Manassas Mauler hurtling out of the ring, and then stood there stupefied while Jack crawled back and rocked him into dreamland in the second round. Gene Tunney has retired; Jack Dempsey has turned actor and Firpo has gained 45 pounds.

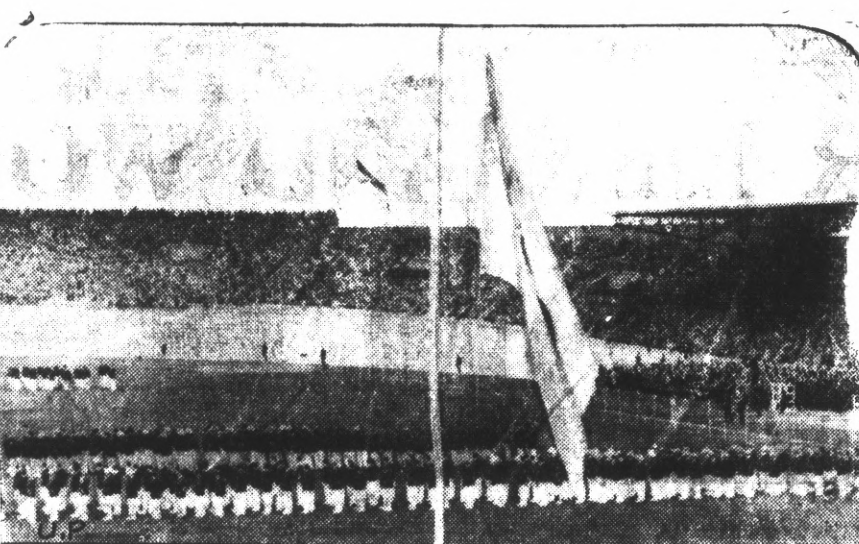

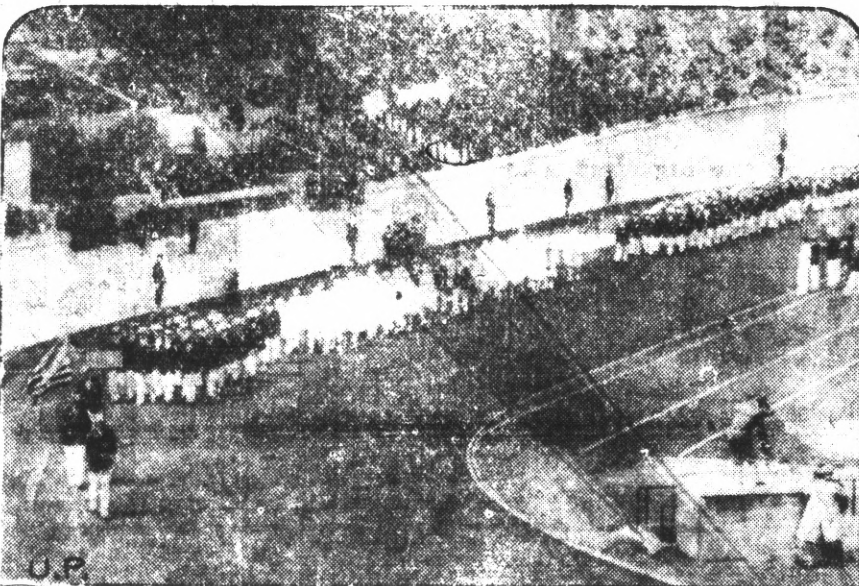

Those 45 pounds are a heavy burden on the Wild Bull's shoulders as he grasps the lowest rung and prepares to start all over again in the long climb up the ladder to pugilistic prominence. United Press dispatches from the Argentina the other day carried the news that Firpo already had lost 15 pounds and was confident he could get back to his fighting weight of 215. He is doing his roadwork conscientiously and proudly exhibits four notches that have been taken in his belt since he started reducing.

Firpo isn't an old man in this age of 30-year old champions. He was born in 1896 and should have at least three good fighting years left in him; he rivals Tunney as an exponent of clean living and has never been known to smoke or take a drink.

Fate has been kind to the Wild Bull since he sailed away from these shores with plenty of Tex Rickard's gold lining his pockets. He has worked hard and is now the head of a prosperous automobile importing concern in Argentina, which he plans to incorporate so he can have more time to devote to training.

Probably nothing would please Rickard more than to have Firpo

## American Olympic Team Swings Into Action

HERE ARE two views of the American team on the opening day of the ninth Olympiad at Amsterdam where the leading amateur athletes of the world competed. Above the Americans are shown marching around the infield of the stadium where the parade of the nations was held. Below the United States representatives are massed behind their standard where they took the historic Olympic oath.

set into shape, whip a few second raters and then plunge into the elimination tournament out of which the next champion of the world will emerge. The Wild Bull is a great favorite among the customers at Madison Square Garden. Making no pretense of being a boxer, Firpo storms into the ring and starts milling with his heavy arms, hoping one of the blows will land. When one does, something happens. Dempsey will swear to that.

Firpo's record is one long advantage, testifying to the fact that he packs a punch. Out of 36 bouts he has won 21 by knockouts. Dempsey is the only man who ever has sent him down for the count of ten.

Tunney's retirement apparently convinced Firpo that he had a good chance against the contenders for the title. With Dempsey out of the way, the Wild Bull is the only man on the horizon who can knockout his opponents

consistently. And that's the kind of fellow Rickard is looking for. If Firpo can get back into shape, there may be some excitement after all in this winter's elimination tournament.

### PARIS STREET TO BLOOM

PARIS, Aug. 16.—(U.P.) The avenue de l'Opera, which was originally intended as a "promenade" similar to the Champs Elysees, may yet see its dream fulfilled. A movement has been started by a group of municipal councilors for the planting of trees along both sides of the famous thoroughfare.

The cost of planting the trees is estimated at less than a million francs.

**School nurse says**  
• all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless. It works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

## RACE TIGHTENS IN COAST LOOP AS SACS LOSE

SAN FRANCISCO, Aug. 16.—(U.P.) Only two games separated the three leaders of the Pacific coast league again tonight following the defeat of Sacramento and victories of Hollywood and the San Francisco Seals.

The Sacramento Senators gave up a comfortable lead and allowed the Indians to score five runs in the fifth, sixth and seventh to win their second game of the week, 6 to 3. Hollywood barely held second place and climbed within a game of Sacramento by scoring one run in the tenth in its game with the Missions. The Missions scored twice in the first but Shellenback shut them out from then on. The final count was 3 to 2.

The Seals won their third game from Los Angeles by a score of 6 to 3. The Seals made all their runs in the first four innings. Portland and Oakland played another close contest with the Beavers winning, 3 to 0. French of Portland shutout the Oaks, allowing them only five hits.

**MOVIES HELP DENTISTS**  
BOSTON, Aug. 16.—(U.P.)—Movies may pave the way to painless dentistry.

A motion picture comedy was tested as a pain killer in an experiment conducted by Dr. James H. Daly of Tufts College at the Tufts dental clinic here.

Patients watched the movie on a screen in front of the dentist chair while teeth were extracted or filled. Dr. Daly said the movie proved almost as effective as anesthetics, and expressed the opinion that the motion picture might find a permanent place in the dental office.

**TODAY'S CHUCKLE**  
WADSWORTH, N. Y., Aug. 16.—(U.P.)—Farmers near here are raising a fund to buy a collar for "Jimmie," a fox-hound who has slain 400 woodchucks. The collar will be suitably inscribed.

## Coast Football Teams Prepare For New Season

SAN FRANCISCO, Aug. 16.—(U.P.)—An agreement was reached here today between representatives of the University of California, U. S. C. and Stanford, that they will meet each other on the football field in each of the coming five years.

U. S. C. and Washington also agreed on five years of competition to start in 1929. The action does not mean that plans are under way for formation of a "Big Four" separate from the Pacific Coast conference. Prof. Charles May, delegate from Washington said. The schools will continue to play other teams of the conference he said.

May's remarks were seconded by other representatives.

## TUNNEY DONS HIGH HAT AND BOARDS BOAT

NEW YORK, Aug. 16.—(U.P.)—Still cursed by the "high hat" which he wears a trifle less gracefully, say, than George Bernard Shaw, Gene Tunney left his gloves and the goose hanging high today and sailed for Europe on the liner Mauretania to engage in gentlemanly pastimes as the fellow of gentlemen.

One hint he dropped as to his future plans, which in view of the fact that a Greenwich Village prize fighter is about to marry into a \$10,000,000 fortune and the social register, was of burning news value. Tunney broadly hinted that he and his fated bride, Miss "Polly" Lauder, heiress to one of the Carnegie fortunes, would spend their honeymoon in Florida. "We'll see you in Florida next winter," the ex-leather pusher, unbending as best he could, remarked to the last reporter to leave the Mauretania stateroom today.

This particular reporter had seen Gene in his Miami Beach place last winter. He was overwhelmed.

"With the family and everything," the reporter asked. "I hope to tell you" assured the Shakespearean scholar. Otherwise Champion Tunney's farewell message to America was sadly lacking in hot stuff.

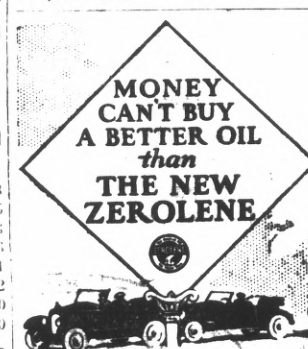

The champion for although he has technically retired, no acceptable substitutes are filling engagements—had luncheon and spent the afternoon with his \$40,000,000 fiancée. Reporters and photographers were searching the town for him, but they could no more find Tunney than could the late Tammas Heaney, New Zealand strong-boy.

### DOE SLAYING PERMITTED

HARRISBURG, Pa., Aug. 16.—(U.P.)—Pennsylvania has the distinction of being one of the few states east of the Mississippi in which wild game abounds and in which there is as much variety for sportsmen.

Deer, bear and elk are among the big game found in large quantities.

This is shown in the recent regulation by the State Game Commission to permit the killing of deer during the 1928 season, in an attempt to prevent a spread of herds to agricultural sections of the state. Bucks, this year, will be protected.

## One-Club Golf Match Will Be Held Sunday

Golfers at the Contra Costa Golf club are looking forward to the One Club Tournament scheduled for next Sunday, August 19. Each member is allowed to play the whole 18 hole tournament with only one club, which in most cases will consist of a midiron or mashie-iron, both of which clubs will give the greatest distance and still enable players to easily use them around and on the greens.

The tournament committee, consisting of Chairman A. A. Blowick, E. C. Gillett and J. H. G. Blair, is offering prizes for the five members bringing in the lowest net scores. Some interesting shots are anticipated, particularly around the two short three par holes and the two long five par holes. Geo. Alban, the 1928 champion, should make a strong bid for low net, because of his long hitting mid-iron shots. Jack Gribbin, runner up in the recent club championship is also expected to finish among the prize winners. For Gribbin's accuracy with the No. 4 iron will help to keep his score at a low figure. Jack Cummings is expected to shine with his favorite mashie niblick, which strange to relate, gives him long drives and accurate approaches.

B. J. Hansen, Jr., R. McDermott, L. Randall and Jack Soares are other leading contenders for prizes. More than sixty other members are expected to enter this freak tournament.

## DAMPIER TO MEET WARRIS AT CERRITO

Eddie Dampier, sensational San Jose scrapper, will meet Eddie Warris of Montana in an eight round main event at El Cerrito tonight.

Promoter Jos Rossi has signed up a card that will probably attract many fans to his pavilion tonight.

In the semi-windup to the main event, Pedro Torres and De La Cruz will trade punches. Mickey Brown, Richmond boy, will meet Johnny Cusack of San Francisco and Pancho Villa of Oakland will tangle with Johnny O'Donnell, San Francisco.

Definite announcement was made yesterday by Rossi that Oakland Jimmy Duffy would meet Babe Anderson, crack San Jose welterweight, in a main event the night of August 21.

The two men will appear next Sunday in an exhibition preliminary to their bout a week from Friday, according to Rossi.

### WILL HONOR TWO TREES

ST. MARYS, Ga., Aug. 16.—(U.P.)—Townpeople are seeking a place in the hall of fame for two old trees here.

One of the trees, the Washington Oak, was planted many years ago in memory of George Washington and the other is believed to be the first pecan tree to grow in the United States.

## Why Not a Bathtub and Boiler Show?

We have expositions of the yearly models in automobiles—radios and motor boats. We redecorate and renovate almost every year.

But we put up for years on end with old-style, behind-the-times, insanitary and drudgery-producing plumbing and heating facilities—without any good reason.

"If Bathtubs and Boilers Were Motor Cars," is a smashing advertisement in the August 18 issue of the Saturday Evening Post. It should make any home-owner or family head do some serious thinking.

Read it and then let us make a "health examination" of your home. Such an examination will cost you nothing—and may make this the most profitable ad you ever answered

## Rescue Crew Going to Aid of Courteney

THIS PICTURE, taken from the deck of the S. S. Minnewaska, shows actual rescue of Capt. Frank T. Courteney, British officer, and his crew of three from their Dornier-Napier flying boat after it had been forced down in mid-Atlantic. One of the four aviators can be seen standing on the prow of the airship as the Minnewaska's small boat nears. Courteney and his men were given official welcome on their arrival in New York. Plane was forced down in flames, which occupants were fortunately able to extinguish.

## Sweetheart Of Bank Bandit Is Found Murdered

CROWN POINT, Ind., Aug. 16.—(U.P.)—Bearing a bullet wound in the head, the charred body of a young woman believed to have been the sweetheart of a bank bandit, was found in a ditch three miles west of here today.

Like her sweetheart, authorities believe, she had been "taken for a ride."

Although the body found today was burned beyond recognition, Sheriff Ben Strong of Lake county expressed his belief that it was that of Miss Adeline Saccard, Chicago, sweetheart of Angelo Francisco, West McHenry bank bandit, whose body was found near Mt. Prospect, Ill., Wednesday.

A girl, said to be Miss Saccard, identified the bank bandit's body at Mt. Prospect late Wednesday. Francisco had been shot through the head.

Police believe the girl was killed because she knew the identity of her sweetheart's slayer. Francisco was suspected of participating in the West McHenry State Bank robbery at McHenry, Ill., in which five bandits obtained \$12,000 last Monday.

valuable property or upon whose shoulders rested the safety of human lives would be fired without ceremony if he shirked that duty.

### WOULD NOT TOLERATE IT

¶ The City of Richmond would not tolerate a member of the fire department or a member of the police department who, paid to guard lives and property or preserve law and order, could not be found when a fire broke out, or when thugs and burglars menaced the safety of the city's households.

### NEGLECTS HIS JOB

¶ Senator Sharkey, as a representative of the Ninth District composed of two great counties, was charged with looking after the interests and fighting for the rights of the taxpayers and citizens of the District.

### HE DID NOT DO IT

¶ He absented himself from his post of duty.

¶ The "wise employer" will not keep on his pay roll an employee who defies his superiors or who neglects his job.

### NO SENSE OF OBLIGATION

¶ Senator Sharkey in more instances than we yet have charged, has shown that he has no sense of the obligation which a servant of the people owes to the people.

### PEOPLE ARE AWAKE

¶ The People have awakened to his gross neglect of duty and disregard of their rights and will tell him to retire to private life on August 28.

¶ These are only a few of the vicious things that show where Sharkey is charged with betraying a public trust.

### MANY THINGS NOT TOUCHED

¶ There are other things that concern Sharkey's career that so far the RECORD-HERALD HAS NOT TOUCHED UPON.

bank. It is there when you want it, and works for you, slowly but SAFELY.

INDUSTRY DOESN'T ALWAYS draw its rewards. United States secret service officers, raiding an apartment in New York, find two loaves of dry bread, two pickles and nine cents, the sole possession of a group of hard-working people. By the sweat of their brow, this industrious group had just counterfeited 700 \$20 gold certificates and Federal Reserve bank notes. Had the gang of counterfeiters managed to circulate the bills, not even an expert would have been able to detect the fraud. The moral, if any, is that the engraver of the bills is a genius of the highest type. Lending his talents to honest and useful pursuits, he would never have been reduced to two loaves of dry bread.

GENE TUNNEY, Heavyweight champion of the world, emigrant, reported engaged to an heiress, relative of Andrew Carnegie. The retired champion's fiancée is said to be beautiful, cultured, youthful and wealthy. Tunney is getting a girl of refinement, family and wealth—but the girl is getting a self-made gentleman, a perfect physical specimen, a man of means. To put it crudely, it's a fifty-fifty proposition.

THE MANAGER OF A 2,000-acre farm at Plymouth, O., sends a request to the Chicago Police department's Bureau for Unemployed Boys for fifteen more young men of the type he has just given a six months' trial. "Give me the city boys or intelligent farm work for they sure do make good," he says. City boys do make good in the country because, despite common impressions, they are physically fit, thanks to gymnastics and various forms of athletics, and because they are intelligent and energetic. In the days of Horatio Alger, the boy from the country came to the city and made

ute talks before station crowds; seven southern California cities to be visited tomorrow in a whirlwind tour; political situations in half a dozen western states to be met and straightened out with the local political leaders who will board his train.

At noon tomorrow he is to make a speech on the Boulder Dam issue on the steps of the city hall at Los Angeles, he had not finished the speech when he boarded his train tonight.

Tuesday night he is to address the farmers of Iowa and citizens of his home town in a speech at West Branch in a tent. He concluded his farm speech several days ago, but when the printed proofs were handed to him from the Stanford University Press, he decided much of it should be rewritten. All day today he spent in his study, rewriting the document and sending it down to the printer a few paragraphs at a time as he concluded it.

More than a score of towns in California, Arizona, New Mexico, Kansas and Iowa are to be visited more or less briefly by the nominee on his trip and extensive arrangements have been made to welcome him all along the route. Accompanying him homeward are Mr. Hoover, their 21 year old son, Allan, George Akerson, his secretary, Assistant Attorney General William J. Donovan, his legal advisor, T. T. C. Gregory, San Francisco attorney, his next door neighbor here, three stenographers, 20 news-papersmen and six moving picture photographers.

His home in Washington has been made ready to receive him and he will not go back to the department of commerce, although by President Coolidge. He will set up his office in his home and will make week end trips the last six weeks of the campaign to deliver speeches in eastern, central and border states.

## FEDERAL STORE TO OPEN SOON

(Continued From Page One)  
der the supervision of the efficient new manager, S. F. Hepp, Hepp has come from Reno, Nevada, where he recently opened the thirtieth Federal store. He has brought his family to Richmond, where he intends to live. Assisting him will be Leon Dringer, formerly affiliated with the Federal Mission street store in San Francisco, who will also make his home here.

Preparations are being made for official opening to the public at 9 o'clock Saturday morning. Prominent manufacturing houses all over the country are already sending messages of congratulation and messages that baskets of flowers are due to arrive for the opening. All of the other thirteen branch Federal stores plan to send floral greetings to make the new branch a profusion of blossoms.

This store is the fourteenth branch of the original Federal Outfitting company founded in 1920 by A. J. Shrage, with its motto, "fashionable attire for men and women." In speaking of the policy of the store, manager Hepp said, "Appreciating the industrial progress evident in Richmond, this company has determined to locate here. We will maintain the custom of a liberal payment basis in our business which will make our finest merchandise within reach of everyone. Our representatives have spared no expense in combining New York and Eastern markets to assemble an individual and fresh line of merchandise. Our huge buying power enables us to place moderate prices on these exclusive wares."

## LOW RATES MAKE ELECTRIC COOKING ECONOMICAL

## 1542 electric ranges just installed in our customers' homes

The Electric Range gives beauty, cleanliness and perfect baking to women who love modern methods.

That is the reason why 1542 of our customers installed Electric Ranges in their homes from May 1st to June 23rd.

The Electric Range has white porcelain enamel that makes kitchens attractive. It bakes perfectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster—less electricity is used.

While you're downtown, stop in and see the new Electric Ranges.
